Kent Place School seeks an Education Technology Integrator and Support Specialist. This position is a member of the technology team and will provide technical assistance for students in grades Junior PreK-12 and coach teachers on best practice in pedagogy when utilizing educational technology in the classroom. Responsibilities will include leading end-user training for students, faculty, and staff; creating and maintaining instructional content; developing and implementing a K-12 EdTech Skills scope and sequence, teaching technical skills in collaboration with classroom teachers, and assisting in the technical support of software and school equipment. BA required, preferably in Educational Technology or related field; minimum 3 years of relevant experience, prior K-12 school experience preferred. Must be proficient with Windows and Apple products, Blackbaud LMS, G Suite, and open to learning new systems. Excellent communication skills, interpersonal skills, and the ability to work with children and adult learners are essential. Please send a cover letter and resume to employment@kentplace.org with “Technology” in the subject line. Kent Place School is an equal opportunity employer. We seek candidates who support the development of a school community that is culturally competent, a working environment that is affirming and inclusive, where each member feels safe and valued, as described in our Diversity statement.
